第十五夜：よくばり馬車の旅

原作：あずみ圭

I've forgotten what it's called, but this is the first base we ran into after leaving Zetsuya.

Yes.

After Mio Tomoe destroyed Zetsuya,

we gathered the 4 surviving adventurers and set out for Tsilge.

Zetsuya was destroyed ?!

Rinon, don't.

Say, weren't those monsters-

The true identity of the swarm of monsters.

What are you acting innocent for?

Naturally, I altered their memories.

A swarm of monsters suddenly appeared and overran the town.

That sounds terrible.

This is because I trust them...

I didn't alter Toa's or Rinon's memories though.

Instead I explained it to them and got the story straight for them.

Oh, right.

Are those monsters still t here?

No, those two ladies who exceed level 1000 managed to chase the monsters away.

... It was me being selfish.

Shit, she looks even more like Hasegawa now...

Well, the actual reason is because doing the same thing to them just felt wrong.

Did I upset him perhaps?

?

Aah.

Excuse me. We registered with the Zetsuya adventurers guild a short while before the town was attacked...

The number of bases scattered across the wasteland is low, so there's nothing here for spreading information.

Huh?

Over 1000? Hahaha! That's a good one!

So then...

That said,

So I'm gonna have to register again.

In emergencies, these become special quests.

Special quest

Sometimes adventurers are tasked with spreading information,

so Zetsuya was probably destroyed before that could happen.

You'd have to reach Tsilge for that.

So which places are equipped for spreading information?

Oh yeah, they said something similar at Zetsuya.

Ha ha ha ha!

no one has registered at one of these bases before.

You people sure are fond of jokes.

There's no guarantee this place won't end up like Zetsuya after we register.

?

I guess we'll be registering again in Tsilge...

That's right.

Of course.

We'll send out a party to investigate it ourselves.

could you inform them of Zetsuya being destroyed?

If you're headed towards Tsilge,

Ugh!

Are you still mad?

It's about the destruction of Zetsuya.

The reason was you and Mio starting a contest of strength, wasn't it?

What it is, Young Master?

Oh, Japanese?

Tomoe,

...
A journey.

Th-That's not it! That's merely some random number the adventurers came up with!

Just look at how they judged you, Young Master!

I can understand why you were so eager though.

The difference in your levels really got to you, didn't it?

Who knows...

What language is that?

Huh?

Long ago, samurai would go off on a journey

to polish their skills through intense training...

Ah!

Are you telling me to improve myself before I register again?!

That's amazing, Tomoe, your level is higher than Mio's.

I am no match for you, Tomoe.

Alright, she's taken the bait.

Young Master!

What is it, Tomoe?

Ah, he's switched back to the common tongue.

I wish to go on a journey to train in the wasteland while you travel to Tsilge!

What?! That's just crazy!

Huh ?!

Going to the "edge" alone is suicidal!

Alright, I'll allow it.

Wh- You're gonna let her go?!

Well then, I'll get going now!

Wha- aaat?!

If Tomoe is going on a journey ...

Good luck.

!?

I'll be the only one here to serve the young master! This is great!

Haah...

Um, I'm sorry, Mio.

We all got in the way of your journey together...

...
It would've been even better if they weren't tagging along.

Lo-

You were out together on that night.

But... Aren't you two lovers?

...
The young master decided on this, so there's nothing else I can do.

That you did. If I had known this would happen

I wouldn't have destroyed Zetsuya...

It's so easy to see through her.

What was this girl's name? Rinon? It seems she is a little charming.

I don't view him in such a...

I decided to support the young master for the rest of his life!

I-I am but a servant!

Was I wrong?

Mio, there seem to be some monsters up ahead, can you deal with them?

Hm? Mio seems to be in a very good mood.

Well, that works out pretty well.

ピクッ

There's some monsters up ahead ...

Oh right, Tomoe usually dealt with them.

ギ

キキッ

Of course!

ヒュ

There.

You're so simple.

This much is nothing.

Hehe-

So skill-ful!

That strength is unbeliev-able!

Allow me to call you madam!

That's amazing! She took down all of those red bees just like that!

わあ

わあ

ピッ・・・

Ugh...

You won't ?

Huh? Um...

Aren't you going to gather the materials?

Let's keep going now.

But don't we have a long journey ahead?

How would you even gather the eyes?

A red bee's eyes and wings are worth quite a bit of money.

I did it because I thought I could learn about gather materials!

No!

I certainly wasn't looking at her chest!

ビクッ!

... Very well, do as you wish.

Thank you!

Oh right, I should watch them gather the materials.

Let's start with the eyes!

Skinning in real life

I didn't want to see Hasegawa's face in this scene!

Eek!

They're nice and fresh! ♥

Ugh ...

ビクッ

ビクッ

Look! It's a giant wall! That's amazing!

About half a month later

Oh?

so I'm not used to traveling normally.

Umm... I traveled to the edge with teleportation magic,

Haven't you been here before?

Tsilge is just past it!

Um, madam Mio,

Wouldn't that be safer?

Haah ...

Why didn't you just use that?

Oh? Teleportation magic?

And I would be left alone with the young master ...

Wow, only the rich could afford that.

That would be about 2,000,000 yen.

But we're almost there anyways.

Though I could afford it.

It's a bit hard to ask for that...

Luggage costs extra, and you would need to wait.

using teleportation magic to travel from Zetsuya to Tsilge

would cost about 20 gold coins per perso

Why don't you try offering this as a service of the Kuzunoha company?

She's really weak against flattery.

Oh! I see...

And it's already really safe because we're traveling with you, madam Mio. This trip has been so pleasant you could charge for it.

ピィィ

There's something up ahead!

……

I'm not interested in transporting people across the wasteland.

Plus, I would like to see more of the world.

Oh, since it was weird for a merchant to not have a company,

I decided to say mine is called "Suzunoha".

It's a little sad how that's directed pretty much completely at Mio.

You've got so much power at your disposal ...

I see... What a shame.

!!

M-Mr. Kuzunoha, there!

Young Master, over there.

Tsk... I was thinking of just quietly disposing of them.

No, those are ruby eyes!

Those are size ants and red bees, right?

I recall the valuable parts are...

It's incredibly rare!

The fact that we're encountering them out side a town is unbelievable!

Is that bee-like thing a rare monster?

I can't believe it...

It's the real thing...

That's just impossible! They would kill us all!

Can you defeat them? If so, you can go right ahead.

What? She's just agitated?

and they not only have those stingers,

but also powerful venom in those fangs!

They're far faster than red bees,

can negate most magic,

Jeez ...

We can just fix that in town.

Madam Mio!

If you say so Young Master —

Okay?

I don't want to get near them!

When I fought those ants yesterday, they dissolved some of my clothing!

Mio, please deal with it.

Young Master ...

And the ruby eyes' wings...

Don't destroy the ruby eyes' heads!

Please leave that sickle on the size ants intact!

Wh-

Me ?!

I have to refuse! Please do it yourself!

I've practiced controlling my strength plenty!

But they are valuable materials ...

And doesn't it function as practice?

Every single time I have to do that tiresome nonsense!

while Mio was left to deal with everything else.

Haah... The easy enemies were dealt with by Toa and the others,

Who do they think they are?!

"Aim for that!" "Don't destroy that!"

You didn't even listen properly, there's no way you can fight them!

You can't aim for the ruby eyes' heads!

Mr. Kuzu-noha, they're too much even for us, you know!

What?! You don't have to!

Fine, I guess I'll have to.

The size ants' weak point is the head, right? And the same for the ruby eyes?

Well, might as well show them what I can do. It's pretty annoying to be thought of as useless anyways.

but the forearms intercept attacks, so hitting it will be hard...

I believe it's the abdomen,

Hey, Toa!

Just tell me what the ruby eyes' weak point is.

They sure are saying whatever they want.

And the part about their weak-nesses was just a slip of the tongue.

it looks like he's concen-trating.

Quiet,

That elf girl is merciless!

I will not move from here.

Isn't she also an archer?

And isn't he just level one?!

A bow?! It'd be one thing to use magic, but a bow doesn't even have the range for this!

There's 6 ruby eyes and 4 size ants.

Locked on!

Enough! Just watch me!

Thank you, Toa, I'll live up to your-

Don't worry!

I take that back.

Oh, that's true.

Madam Mio is here to help you if anything happens!

Damn it!

There's the first!

Second!

Third!

Fourth!

Fifth!

Sixth!

Seventh!

Huh? No way ...

What's ...

Eighth!

Ninth!

キ!

And that's the last one!

How's that? A single shot to get each one!

That was amazing.

It really was ...

As expected of Young Master.

Miracles happen whenever I wield a bow!

But the bow and arrows look completely normal...

The effect of that aiming [eimingu] was amazing!

That's what amazes you?!

ヒ"

Is it eternal sleep [eimin]?

It's true, there's no enchant-ments on this bow...

It's just a normal bow.

The arrows were made by a skilled craftsman, but there's no special effects on them either.

Since I was young, archery was my sole specialty.

That was really cool!

It really was.

Hahaha, thank you.

It can't be...

Just who is he?

They were only interested for a moment.

Of course!

Let's go gather the materials!

Well, that aside ...

And that's the last one...

ギャァ

ビクンッ

It's so pretty...♡

Please don't look so happy about it...

I just can't get used to that sight.

ビクッ

Are you all done?

Ah, yes!

We got all 12 eyes from the ruby eyes without any problems.

He he he ♡

It looks so gross ...

Since they're rare monsters, it should fetch a high price...

It's been about 2 months since I arrived here,

and about 3 weeks since Zetsuya was destroyed.

Let's head off towards Tsilge then.

Starting over at a new location! May Makoto finally be blessed with fortune!

Onwards to Tsilge!

I've finally arrived at a proper town.

カタ ン

It won't even fit!

Young Master, may I eat the wall?

You'll upset your stomach.
